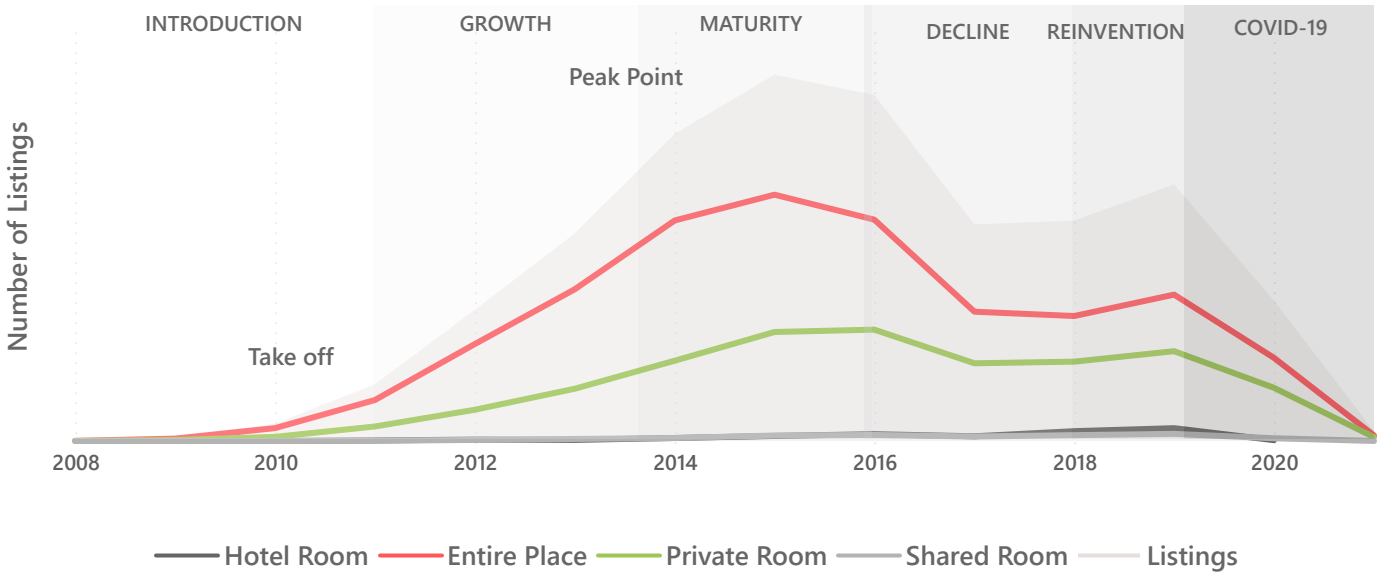
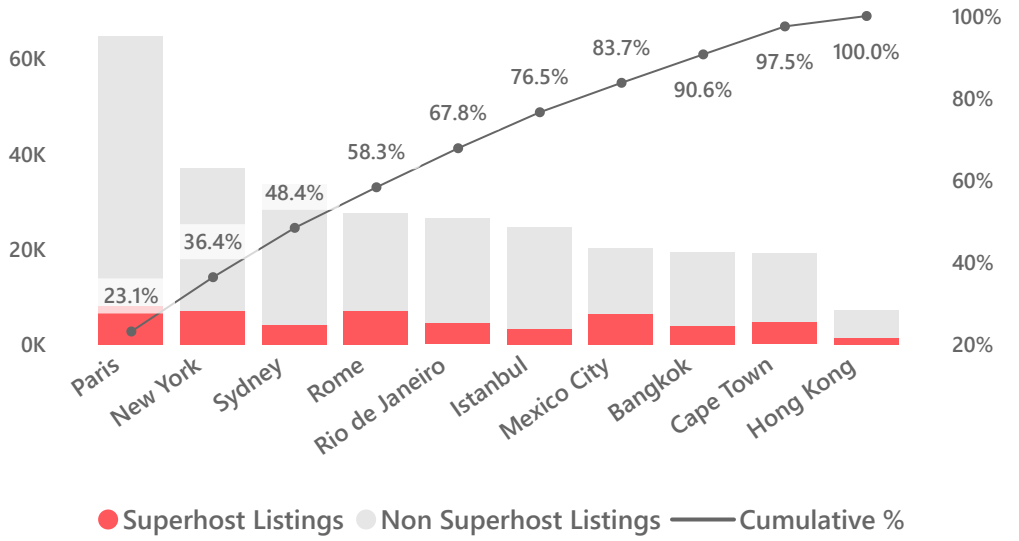
New Listings



Listings grew rapidly till 2015–16 (peak), then started declining, showing a full lifecycle from growth to maturity and decline.
COVID-19 caused a sharp drop in listings, especially impacting entire place listings the most.

Airbnb Business Performance Dashboard

Market Share by City



Paris, New York, and Sydney account for nearly half of the total listings and around *48%* of total revenue, indicating *strong market concentration in major cities.*

Paris has the *highest number of listings*, possibly due to higher hotel prices, encouraging travelers to prefer Airbnb as a more affordable option. Additionally, *non-superhost* listings dominate across all cities, showing that most listings are managed by *regular hosts.*

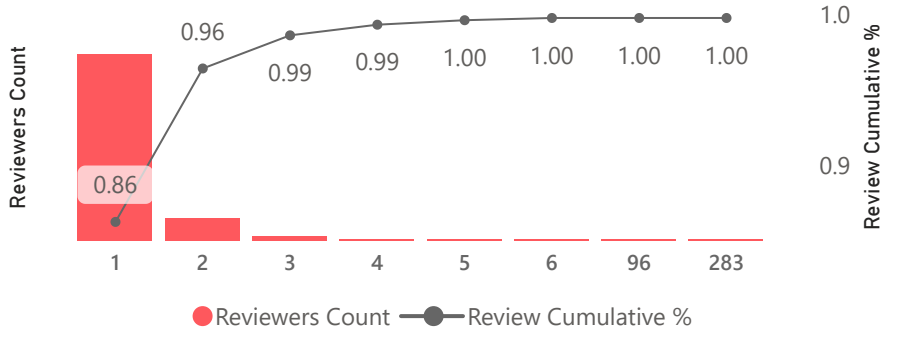
Airbnb Business Performance Dashboard

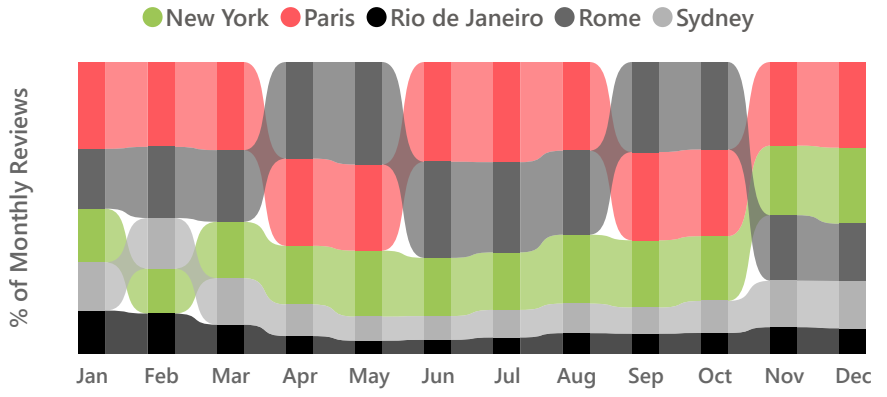
Review Frequency



Paris, New York, and Sydney account for nearly half of the total listings and around *48%* of total revenue, indicating *strong market concentration in major cities.*

Paris has the *highest number of listings*, possibly due to higher hotel prices, encouraging travelers to prefer Airbnb as a more affordable option. Additionally, *non-superhost* listings dominate across all cities, showing that most listings are managed by *regular hosts.*

Seasonality



Paris and *Rome* dominate review share from *April to August*, reflecting peak European summer travel.

New York sees a rise in *November and December*, driven by the holiday season.

Trust

66.9% Verified + Pic	0.1% Verified + No Pic
32.6% Not Verified + Pic	0.3% Not Verified + No Pic

Most hosts (66.9%) are verified and have a profile picture, showing people prefer complete and trustworthy profiles. Many users still add a *photo even if not verified (32.6%),* but very few skip both, so having a picture matters more.
